Dear Office of Science Policy Comments

I object strongly to the NIH's proposal to rescind its moratorium on funding of human-animal chimeras. I do not want my tax dollars being used for grossly unethical research involving the creation and manipulation of part-human, part-animal beings whose very existence blurs the line between humans and non-human animals.

I also object strongly to the NIH's apparent lack of consideration for the ethical issues implicated

M ALCAMO

by this research.

Sincerely,

Madeline Alcamo
