8-31-16

Dear Gentlemen:

I absolutely object to the NIH proposal to rescind it's moratorium on funding of research involving humans - animals - (chimeras). This would be so unethical and I do not want my tax dollars or anyone elses dollars to fund this. This is forbidden territory & crosses the line.

I strongly urge you, if not insist, that you maintain the current moratorium on funding ~~research~~ research involving the creation & manipulation of human-animal chimeras.
