September 2, 2016

Dear Folks,

I hope you enjoyed a good Labor Day week-end -

I strongly object to NIH's proposal to rescind its moratorium of funding of research involving human-animal oddities.

You have the duty to consider the ethical issues implicated by this "research".

I do not want my Tax dollars being used for grossly unethical research involving creation of part-human, part-animal beings whose very existence blurs the line between human and non-human animals.

I strongly urge you to recognize your dignity, and to maintain the current moratorium on funding research involving the creation and manipulation of human-animal entities.

Thank you -

Sincerely,

Mary Sullivan
