National Institute of Health

Please, please, please!
Do not lift the ban on funding of research involving human-animal chimeras! I strongly object your using tax dollars for such an unholy research. Have you not thought through the serious problems you will be creating?!! Have you not considered how we offend our Creator in trying to play God? Do you realize you are killing humans in the process of gaining embryonic stem cells? Honestly - have you even put much thought into this abomination?

If you believe in God then you know the truth about life and must follow the 10 commandments. It cares for all souls - yours included. Please - do not allow our country to fall to such low practices. God is the WAY, the TRUTH and the LIFE. Any other beliefs will not get you to heaven & eternity with Him.
