SP¹ – Single-project applications can be submitted using Grants.gov’s downloadable forms or using a system-to-system solution. By the end of 2015, ASSIST will be an option for single-project activity codes ([timeline](#)).

MP² – Multi-project applications can be submitted using NIH’s ASSIST system or using another system-to-system solution. Currently, applications to multi-project activity codes are only submitted electronically for NIH. Partner Agencies still use paper processes for these codes.
