

## Table 1. Census of Participating Departments and Interdepartmental Programs

### Rationale

This table provides insight into the environment in which the proposed training will take place. It allows reviewers to assess whether the program has the "critical mass" of trainees and faculty and, in the case of interdepartmental programs, representation/distribution of scientific disciplines, to be effective.

### Instructions

#### Part I. Predoctorates

For the current academic year, provide the total number of faculty members, predoctorates, and postdoctorates in each participating department and interdepartmental program, regardless of whether this is a predoctoral or postdoctoral program application. Faculty members should be counted more than once if they participate in a departmental as well as an interdepartmental program(s). Predoctorates and postdoctorates should be counted only once and in association with a single department or interdepartmental program.

For each participating department, division, or interdepartmental program enter the following counts for the current academic year:

- 1) **Participating Department or Program.** List the name of the Department, Division, or Interdepartmental Program.
- 2) **Total Faculty.** Provide the total number of current faculty members. In the Total row, count each faculty member only once and enter, in bold font, the total number of *unique* faculty members across the participating departments and interdepartmental programs.
- 3) **Participating Faculty.** Provide the total number of faculty members who will participate in the proposed training program. In the Total row, count each faculty member only once and enter, in bold font, the total number of *unique* participating faculty members across the participating departments and interdepartmental programs. (Where faculty members are included in the counts for both a department and a program, or have appointments in more than one participating department, the total number of *unique* faculty will be less than the sum across participating departments and programs.)
- 4) **Total Predoctorates.** Enter the total number of predoctorates. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of predoctorates for this column.
- 5) **Total Predoctorates Supported by any HHS Award.** Provide the total number of predoctorates who are currently supported by **any** HHS training award (e.g., NIH T32, T90/R90, F30, F31, AHRQ T32, CDC T03). In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of predoctorates for this column.
- 6) **Total Predoctorates with Participating Faculty.** Provide the total number of predoctorates with those faculty who are participating in the proposed training program. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of predoctorates for this column.
- 7) **Eligible Predoctorates with Participating Faculty.** Provide the total number of predoctorates who are with participating faculty, and who are eligible for support under the proposed award. In most cases (i.e., a T32 application), this number will reflect students who are citizens or non-citizen nationals of the U.S. or permanent residents. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of predoctorates for this column.
- 8) **Training grant eligible (TGE) Predoctorates Supported by this Training Grant (Renewals, Revisions Only).** If this is a renewal or revision application, enter the total number of TGE or training-grant eligible (i.e., U.S. citizens, non-citizen nationals of the U.S. or permanent residents) predoctorates currently supported by **this** training grant. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of predoctorates for this column. If not a renewal or revision application, do not include this column.
- 9) **Predocorates Supported by this Training Grant (R90 Only Renewals/Revisions).** If this is a renewal or revision application of a T90/R90 award, enter the total number of predoctorates currently supported on the R90 award component. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of predoctorates for this column. If not a renewal or revision of a T90/R90 award, do not include this column.

## Part II. Postdoctorates

For the current academic year, provide the total number of faculty members, predoctorates, and postdoctorates in each participating department and interdepartmental program, regardless of whether this is a predoctoral or postdoctoral program application. Faculty members should be counted more than once if they participate in a departmental as well as an interdepartmental program(s). Predoctorates and postdoctorates should be counted only once and in association with a single department or interdepartmental program.

For each participating department, division or interdepartmental program enter the following counts for the current academic year:

- 1) **Participating Department or Program.** List the name of Department, Division or Program.
- 2) **Total Faculty.** Provide the total number of current faculty members. In the Total row, count each faculty member only once and enter, in bold font, the total number of **unique** faculty members across the participating departments and interdepartmental programs. (Where faculty members are included in the counts for both a department and a program, or have appointments in more than one participating department, the total number of **unique** faculty will be less than the sum across participating departments and programs.)
- 3) **Participating Faculty.** Provide the total number of faculty members who will participate in the proposed training program. In the Total row, count each faculty member only once and enter, in bold font, the total number of **unique** participating faculty members across the participating departments and interdepartmental programs.
- 4) **Total Postdoctorates.** Provide the total number of postdoctorates. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of postdoctorates for this column.
- 5) **Total Postdoctorates Supported by any HHS Training Award.** Provide the total number of postdoctorates who are currently supported by **any** HHS training award (e.g., T32, T90/R90, F32, AHRQ T32, CDC T03). In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of postdoctorates for this column.
- 6) **Total Postdoctorates with Participating Faculty.** Provide the total number of postdoctorates with those faculty who are participating in the proposed training program. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of postdoctorates for this column.
- 7) **Eligible Postdoctorates with Participating Faculty.** Provide the total number of postdoctorates who are with participating faculty and who are eligible for support under the proposed award. In most cases (e.g. a T32 application), this number will reflect individuals who are citizens or non-citizen nationals of the U.S. or permanent residents. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of postdoctorates for this column.
- 8) **Training grant eligible (TGE) Postdoctorates Supported by this Training Grant (Renewals/ Revisions).** If this is a renewal or revision application, enter the total number of TGE postdoctorates currently supported by **this** training grant. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of postdoctorates for this column. If not a renewal or revision application, do not include this column.
- 9) **Postdoctorates Supported by this Training Grant (R90 Only Renewals/ Revisions) Only.** If this is a renewal or revision application of a T90/R90 award, enter the total number of postdoctorates currently supported on the R90 award component. In the Total row, sum across departments and interdepartmental programs and enter, in bold font, the total number of postdoctorates for this column. If not a renewal or revision of a T90/R90 award, do not include this column.

Summarize these data in the Background Section of the Research Training Program Plan. Use the narrative to describe the organization of the proposed training program, the participating departments and interdepartmental programs, and the extent to which faculty, graduate students, and/or postdoctorates from those departments/interdepartmental programs participate in the programmatic activities to be supported by the training grant.

## Sample Table 1. Census of Participating Departments and Interdepartmental Programs

### Part I. Predoctorates

Participating Department or Program	Total Faculty	Participating Faculty	Total Predoctorates	Total Predoctorates Supported by any HHS Training Award	Total Predoctorates with Participating Faculty	Eligible Predoctorates with Participating Faculty	TGE Predoctorates Supported by this Training Grant (Renewals/Revisions)	Predoctorates Supported by this Training Grant (R90 only Renewals/Revisions)
Department of Biochemistry	45	14	38	15	12	6	2	0
Neuroscience Program	32	20	31	20	14	7	4	1
Department of Pharmacology	25	5	30	10	5	3	3	0
<b>Total</b>	<b>98</b>	<b>36</b>	<b>99</b>	<b>45</b>	<b>31</b>	<b>16</b>	<b>9</b>	<b>1</b>

### Part II. Postdoctorates

Participating Department or Program	Total Faculty	Participating Faculty	Total Postdoctorates	Total Postdoctorates Supported by any HHS Training Award	Total Postdoctorates with Participating Faculty	Eligible Postdoctorates with Participating Faculty	TGE Postdoctorates Supported by this Training Grant (Renewals/Revisions)	Postdoctorates Supported by this Training Grant (R90 Only Renewals/Revisions Only)
Department of Biochemistry	45	14	24	10	9	5	2	0
Neuroscience Program	32	20	27	20	12	5	3	1
Department of Pharmacology	25	5	15	8	5	3	2	0
<b>Total</b>	<b>98</b>	<b>36</b>	<b>66</b>	<b>38</b>	<b>26</b>	<b>13</b>	<b>7</b>	<b>1</b>

## Table 2. Participating Faculty Members

### Rationale

This information allows reviewers to assess the distribution of participating faculty by rank (junior vs. senior), by research interests, and by department or interdepartmental program. In addition, data on the mentoring records of faculty permit an evaluation of the experience of participating faculty in facilitating the progression of predoctorates and postdoctorates in their careers. The data concisely summarize information about the training faculty.

### Instructions

List participating faculty in alphabetical order by last name. For each participating faculty member, provide:

- 1) **Name.** Include the full name in the format Last Name, First Name and Middle Initial.
- 2) **Degree(s).** Provide the faculty member's terminal degree(s).
- 3) **Rank.** Provide the academic rank held by each faculty (e.g., Asst. Prof. for Assistant Professor, Assoc. Prof. for Associate Professor, Prof. for Professor, Res. Asst. Prof. for Research Assistant Professor, Instructor).
- 4) **Primary Department or Program.** List the primary affiliation (department, interdepartmental program, or other academic unit).
- 5) **Research Interest.** Provide the faculty member's research interest relevant to the proposed training program.
- 6) **Training Role.** Provide up to three role(s) for each faculty in the proposed training program, selected from the following options: PD/PI, Preceptor, Executive Committee member (Exec. Comm.), Other Committee member (Other Comm.), Other.

**Mentoring Record (Items 7-12).** For the last 10 years, provide the record for mentoring predoctorates and postdoctorates who have been or are currently engaged in research training under the faculty member's primary supervision. Exclude predoctorates doing research rotations, and clinical interns and residents unless they have been or are currently engaged in full-time, mentored research training in the faculty member's research group.

- 7) **Predocorates in Training.** Provide the number of predoctorates who are currently in training.
- 8) **Predocorates Graduated.** Provide the number of predoctorates who were awarded their doctoral degree during the last 10 years.
- 9) **Predocorates Continued in Research or Related Careers.** Provide the number of predoctorates who were awarded their doctoral degree during the last 10 years and who currently are engaged in a research-intensive or research-related career. Research-related positions generally require a doctoral degree, and may include activities such as teaching, administering research or higher education programs, science policy, and technology transfer.
- 10) **Postdoctorates in Training.** Provide the number of postdoctorates who are currently in training in the faculty member's laboratory.
- 11) **Postdoctorates Completed Training.** Provide the number of postdoctorates who completed postdoctoral training in the faculty member's laboratory during the last 10 years.
- 12) **Postdoctorates Continued in Research or Related Careers.** Provide the number of postdoctorates who completed postdoctoral training during the last 10 years and who currently are engaged in a research-intensive or research-related career.

Summarize these data in the Research Training Program Plan, within the Background Section and the Program Faculty Section of the Program Plan. Use the narrative to describe the distribution of participating faculty by academic rank, department or interdepartmental program, areas of research emphasis, and the rationale for the faculty selected to participate in the training grant. Analyze the data in terms of the overall experience of the faculty in training predoctorates and/or postdoctorates. Comment on the inclusion of faculty whose mentoring records may suggest limited, recent training experience at either training level (predoctoral or postdoctoral).

**Sample Table 2. Participating Faculty Members**

Name	Degree(s)	Rank	Primary Department or Program	Research Interest	Training Role	Pre-doctorates In Training	Pre-doctorates Graduated	Pre-doctorates Continued in Research or Related Careers	Post-doctorates In Training	Post-doctorates Completed Training	Post-doctorates Continued in Research or Related Careers
Abrams-Johnson, Jane	PhD	Asst. Prof.	Pharmacology	Regulation of Synthesis of Biogenic Amines	Preceptor Other Comm	1	2	2	1	0	0
Jones, Lisa S.	PhD	Res. Asst. Prof.	Biochemistry	Protein Structure, Folding, and Immunogenicity	Preceptor Exec Comm	3	3	3	4	2	2
Sandoz, Miguel J.	MD, PhD	Assoc. Prof.	Neuroscience	Developmental Genetics in Drosophila	Preceptor	4	6	5	4	8	6
Thomas, James C.	PhD	Prof.	Biochemistry	Molecular and Genetic Analysis of RNA Viruses	PD/PI	7	10	9	8	15	14

### **Table 3. Federal Institutional Research Training Grant and Related Support Available to Participating Faculty Members**

#### **Rationale**

This table will permit an evaluation of the current level of support for related research training and the extent to which the proposed training grant has overlap in participating faculty. This information is useful in assessing the institutional environment and determining the number of training positions to be awarded.

#### **Instructions**

For all currently active, federal institutional training (e.g., NIH T32, T35, AHRQ T32), career development, and research education (e.g., NIH R25, K12/KL2, TL1) support available to the participating faculty members, list the following:

- 1) **Grant Title.** Provide the full grant title. Do not list all training and related grants at the participating institution(s); list only those with any overlapping faculty (i.e., including any of the same faculty members participating in the proposed training program).
- 2) **Award Number.** Provide the full award number.
- 3) **Project Period.** Provide project period dates inclusive of the entire project period, in the format MM/YYYY-MM/YYYY
- 4) **PD/PI.** Provide the name of the PD/PI(s), in the format Last Name, First Name Middle Initial.
- 5) **Number of Predoctoral Positions.** Provide the number of full-time predoctoral training positions. In the Total row, sum the number of predoctoral positions across all awards and enter the total in bold font.
- 6) **Number of Postdoctoral Positions.** Provide the number of full-time postdoctoral training positions. In the Total row, sum the number of postdoctoral positions across all awards and enter the total in bold font.
- 7) **Number of Short-Term Positions.** Provide the number of short-term training positions. In the Total row, sum the number of short-term positions across all awards and enter the total in bold font.
- 8) **Number of Participating Faculty (Number Overlapping).** Provide the total number of participating faculty members and, parenthetically, the number of participating faculty members who are also named in this application (overlapping faculty).
- 9) **Name of Overlapping Faculty.** List the last names of all overlapping faculty.

Summarize these data in the Background Section of the Research Training Program Plan. Use the narrative to summarize the level of research training support at the institution. Comment on instances where the tabular data indicate that there may be substantial overlap of participating faculty.

**Sample Table 3. Federal Institutional Research Training Grants and Related Support Available to Participating Faculty Members**

Grant Title	Award Number	Project Period	PD/PI	Number of Predoctoral Positions	Number of Postdoctoral Positions	Number of Short-Term Positions	Number of Participating Faculty (Number Overlapping)	Names of Overlapping Faculty
Bioimmunotherapy Training Grant	T32 CA05964-11	07/2011-06/2016	Thomas, James C.	12	0	0	25 (6)	Abelson Brown Fields Johnson Sung Watson
Genetic Basis of Mental Illness	T32 MH02708-07	07/2010-06/2015	Johnson, Albert P.	4	4	2	7 (2)	Johnson Watson
Research Education Program for Residents in Psychiatry	R25 MH09876-06	07/2013-06/2018	Mendez, V. Roberto	0	6	0	33 (3)	Mendez Rivers Truesdale
Career Development in Pediatric Mental Health	K12 HD01234-09	07/2012-06/2017	Sterman, Patricia S.	0	4	0	19 (1)	Rubin
<b>Total</b>				<b>16</b>	<b>14</b>	<b>2</b>		

## Table 4. Research Support of Participating Faculty Members

### Rationale

This table provides evidence of the strength of the research environment, the availability of funds to support research conducted by the trainees, and the appropriateness of the participating faculty in terms of their active research support.

### Instructions

For each faculty member, list the following:

- 1) **Faculty Member.** List participating faculty members in alphabetical order by last name, in the format Last Name, First Name and Middle Initial.
- 2) **Funding Source.** List the funding source as NIH, AHRQ, NSF, Other Federal (Other Fed), University (Univ), Foundation (Fdn), None, or Other. If none, state "None." **Exclude applications pending review or award.**
- 3) **Grant Number.** For each participating faculty member, provide the full grant number for the currently active research grant support in which the faculty member has a role of PD/PI from all sources that will provide the context for research training experiences. Exclude institutional research training grants, institutional career development grants, and research education grants.
- 4) **Role on Project.** Provide the role of the faculty member on the research project grant (PD/PI or Center Project PI roles **only**).
- 5) **Grant Title.** Provide the Grant Title.
- 6) **Project Period.** List the inclusive dates of the entire project period (in the format MM/YYYY-MM/YYYY).
- 7) **Current Year Direct Costs.** Provide the direct costs for the current budget period. Calculate and provide the average grant support per Participating Faculty Member in the last row.

If the source of support is part of a multiple project grant (e.g., a P01), provide the above information only for that component of the grant on which the faculty member is the Project PI.

Summarize these data in the Program Plan (Program Faculty [Section](#)) of the Research Training Program Plan. Analyze the data in terms of total and average grant support. Comment on the inclusion of faculty without research grant support in the proposed training program and explain how the research of trainees who may work with these faculty members would be supported.

**Sample Table 4. Research Support of Participating Faculty Members**

<b>Faculty Member</b>	<b>Funding Source</b>	<b>Grant Number</b>	<b>Role on Project</b>	<b>Grant Title</b>	<b>Project Period</b>	<b>Current Year Direct Costs</b>
Jones, Janine L.	NIH	1 R01 GM76259-01	PD/PI	Structure and Function of Acetylcholine Receptors	06/2014--05/2018	\$190,000
Jones, Janine L.	NIH	5 K08 AI00091-03	PD/PI	Purification & Identification of Receptors	11/2012-11/2017	\$140,000
Ehlers, Roger G.	Univ		PD/PI	University start-up funds	08/2014-07/2017	\$350,000
Mack, Thomas R.	Fdn		PD/PI	Control of Angiogenesis	03/2011-02/2015	\$185,000
Mack, Thomas R.	NSF	PCM 80-12935	PD/PI	Cell Culture Center	12/2012-11/2015	\$180,000
Mack, Thomas R.	NIH	1 P01 HL71802-05	Project PI	Subproject 4: Oncogenic Kit Receptor Signaling in vivo	10/2011-09/2015	\$165,000
Smith, James P.	None					
Zachary, Andrew	NIH	1 U01 AI28507-01	PD/PI	Human Monoclonal Antibodies as a Therapy for Staphylococcal Enterotoxin	07/2013-06/2018	\$200,000
<b>Average Grant Support per Participating Faculty Member</b>						<b>\$282,000</b>

## Table 5B. Publications of Those in Training: Postdoctoral Rationale

This information provides an indicator of the ability of each faculty member to foster trainee productivity through generation of publishable results and allows assessment of the research quality and authorship priority of trainees.

### Instructions

For each trainee, list the following:

- 1) **Faculty Member.** Sort postdoctorates by faculty member. List each faculty member in the format Last Name, First Name and Middle Initial.
- 2) **Trainee Name.** List each trainee in the format Last Name, First Name and Middle Initial.
  - **New applications.** For each participating faculty member in a **new** application, list all publications of representative, previous postdoctorates from the last 10 years and **all** current postdoctorates. Only include individuals who would have been eligible for appointment to this training program.
  - **Renewal/revision applications.** For each participating faculty member in a renewal/revision application, list the publications of all current trainees and those appointed to the grant for up to the past 10 years, with the exception of those appointed to short-term training positions.
- 3) **Past or Current Trainee.** Sort postdoctorates by faculty member. For each faculty member, group past postdoctorates separately from current postdoctorates. Sort each group by their year of entry into postdoctoral training with the faculty member or in association with the program.
- 4) **Training Period.** Indicate the year that postdoctorates entered into training with the current faculty member or in association with the program and the year they completed or left the training program, in the format YYYY-YYYY. For current postdoctorates, report the year they started the program or began working with the current faculty member and indicate that training is still underway by using the format YYYY-Present.
- 5) **Publication (Authors, Year, Title, Journal, Volume, Inclusive Pages).** List publications in chronological order followed by abstract-only publications. List all publications of postdoctorates resulting from their period of training in the faculty member's laboratory or in association with the current [training program](#). **Do not list publications resulting from work done prior to joining the training program or arising from research initiated after the completion of the program.** List abstract-only publications **only** if a more complete publication has not appeared and label these clearly as abstracts. Boldface the postdoctorate's name in the author list.
  - For postdoctorates without a publication, indicate "No Publications." Provide one of the following explanatory phrases: new entrant, leave of absence, change of research supervisor, left program, other.

Summarize these data in the Program Plan section of the Research Training Program Plan including, for example, the average number of papers published by postdoctorates, the number as first author, and the number of postdoctorates who completed training without any peer-reviewed publications.

**Sample Table 5B. Publications of Those in Training: Postdoctoral**

Faculty Member	Trainee Name	Past or Current Trainee	Training Period	Publication (Authors, Year, Title, Journal, Volume, Inclusive Pages)
Berg, Lawrence P.	Thomas, Patrick D.	Past	2003-2006	Miter, M.H., Owens, R., <b>Thomas, P.</b> , and Berg, L., 2006, Insulin Deficiency in Diabetic Rats, J. Nutrition, 373:350-378.
Chew, Jason B.	Greenstuff, Marisa P.	Current	2012-Present	<b>Greenstuff, M.</b> , and Chew, J., 2014, Non-digestible fibre influences bioavailability of vitamins, J. Pharm Sci. (In press).
Easygai, Franchesca	Taylor, Doris W.	Past	2010-2013	No Publications: Change of Research Supervisor
Newpeeye, Pamela W.	Fall, Winfred	Past	2012-2014	No Publications: Leave of Absence

## Table 6B. Applicants, Entrants, and Their Characteristics for the Past Five Years: Postdoctoral Rationale

These data permit the evaluation of the ability of participating departments/interdepartmental programs to recruit trainees. These data are useful in assessing the selectivity of the admissions process, the competitiveness of the training program, and the appropriate number of training positions to be awarded.

### Instructions

#### Part I. Counts

In **Part I** of this table, list the following counts for each participating department/interdepartmental program and for each major degree type (i.e., PhDs, MDs, Dual Degree Holders, including individuals holding the MD/PhD, DDS/PhD, DVM/PhD, or other dual degrees, and Other Degree Holders) for each of the past 5 years. Depending on the grant cycle, users may choose to report by academic or grant year, but should always begin with the most recently completed year.

- 1) **Most Recently Completed Year.** Enter the most recently completed year in the format “Most Recently Completed Year: 2013-2014”
- 2) **Total Applicant Pool.** Number of individuals who formally applied for training
- 3) **Applicants Eligible for Support.** Number of individuals who formally applied for training and were eligible for support from this grant (In most cases, eligible individuals will be those who are citizens or non-citizen nationals of the U.S. or permanent residents; see the Funding Opportunity Announcement for specific guidance.)
- 4) **New Entrants to the Program.** Number of new entrants to the department/interdepartmental program)
- 5) **New Entrants Eligible for Support.** Number of new entrants to the department/interdepartmental program who were eligible for support from this grant
- 6) **New Entrants Appointed to this Grant (Renewal/Revision Applications Only).** Number of new entrants appointed to this grant (If this is not a Renewal/Revision application, do not include this column.)

Include only those postdoctoral applicants who could be considered candidates for the proposed training program.

Summarize these data in the Program Plan (Trainee Candidate Section) of the Research Training Program Plan. Analyze the data in terms of the overall numbers of potential trainees, their sources, their credentials and eligibility for support, and enrollment trends. The narrative should clearly describe the recruitment process for postdoctoral trainees (e.g., whether candidates are selected from individuals in the laboratories of proposed faculty members or whether there is a formal application process to the training program).

For each additional year, enter the prior year in the format “Previous Year: 2012-2013” until all five years are completed, and complete the sections as described above. In the final section of **Part I**, provide the mean count for each column.

#### Part II. Characteristics

In **Part II** of the table, provide the following information about the characteristics of entrants and applicants, for each of the past 5 years (e.g., academic or grant years), beginning with the most recently completed year:

- 1) **Mean Number of Publications (range).** For each category of applicants and entrants as defined in Part I, items 2-6, enter the mean number of publications calculated to one decimal place (e.g., 2.5) and range (e.g., 0-6), at the time of application to the program.
- 2) **Mean Number of First-Author Publications (range).** For each category of applicants and entrants as defined in Part I items 2-6, enter the mean number (calculated to one decimal place) and range of first-author publications at the time of application to the program.
- 3) **Prior Institutions.** For each category of entrants as defined in Part I, items 4-6, enter the names of their prior institutions. For postdoctorates, this will be the names of their doctoral degree-granting institutions. If more than one entrant has the same prior institution, list the institution only once, followed by the number of entrants in parentheses.
- 4) **Percent with a Disability.** For each category of entrants as defined in Part I, items 4-6, enter the percent of individuals with disabilities, defined as those with a physical or mental impairment that substantially limits one or more major life activities.
- 5) **Percent from Underrepresented Racial and Ethnic Groups.** For each category of entrants as defined in Part I, item 4) to item 6), enter the percent of individuals from racial and ethnic groups that have been shown by the National Science Foundation to be underrepresented in biomedical research on a national basis (i.e., African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and other Pacific Islanders).

For each additional year, enter the prior year in the format "Previous Year: 2012-2013" until all five years are completed, and complete the sections as described above. In the final section of **Part II**, provide the mean values for all years of support.

Summarize these data in the Program Plan (Trainee Candidate Section) of the Research Training Program Plan. Analyze the data in terms of the overall numbers of potential trainees, their credentials, characteristics, and eligibility for support, and enrollment trends.

**Sample Table 6B. Applicants, Entrants, and Their Characteristics for the Past Five Years: Postdoctoral**

**Part I. Counts**

<b>Most Recently Completed Year: 2013-2014</b>	<b>Total Applicant Pool</b>	<b>Applicants Eligible for Support</b>	<b>New Entrants to the Program</b>	<b>New Entrants Eligible for Support</b>	<b>New Entrants Appointed to this Grant (Renewal/Revision Applications Only)</b>

## Table 7. Appointments to the Training Grant for Each Year of the Current Project Period (renewal/revision applications only) Rationale

For renewal or revision applications, these data permit evaluation of the use of awarded training positions. Note that counts for “Awarded” and “Appointed” trainees will be auto-filled. Counts for the number of “Appointed” trainees will be editable in the event that recent updates are not yet reflected in the system.

### Instructions

- 1) Provide the following counts for each complete budget year (i.e., Budget Year 01, Budget Year 02, Budget Year 03, Budget Year 04, and Sum of Budget Years) since the last competing grant application. Exclude any section (i.e., predoctoral, postdoctoral, or short-term) that does not apply.
- 2) **Predocctoral Positions Awarded.** Enter, in bold, the number of predoctoral training positions awarded.
- 3) **Predocctorates Appointed.** Enter, in bold, the number of predoctorates appointed.
- 4) **Predocctorates: Dual Degree.** Enter, in plain text, the number of predoctorates appointed who are in a dual-degree program.
- 5) **Predocctorates: Diverse Backgrounds.** Enter, in plain text, the number of predoctorates appointed who are from diverse backgrounds (i.e., from racial and ethnic groups that have been shown by the National Science Foundation to be underrepresented in biomedical research on a national basis: African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and other Pacific Islanders).
- 6) **Postdoctoral Positions Awarded.** Enter, in bold, the number of postdoctoral training positions awarded.
- 7) **Postdoctorates Appointed.** Enter, in bold the number of postdoctorates appointed.
- 8) **Postdoctorates: MD or Equivalent.** Enter, in plain text, the number of postdoctorates appointed with an MD or equivalent degree.
- 9) **Postdoctorates: PhD or Equivalent.** Enter, in plain text, the number of postdoctorates appointed with a PhD or equivalent degree.
- 10) **Postdoctorates: DDS, DVM, Other.** Enter, in plain text, the number of postdoctorates appointed with a DDS, DVM, or other terminal doctoral degree.
- 11) **Postdoctorates: Dual Degree.** Enter, in plain text, the number of postdoctorates appointed with a dual degree.
- 12) **Postdoctorates: Diverse Backgrounds.** Enter, in plain text, the number of postdoctorates appointed who are from diverse backgrounds (i.e., from racial and ethnic groups that have been shown by the National Science Foundation to be underrepresented in biomedical research on a national basis: African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and other Pacific Islanders).
- 13) **Short-Term Awarded.** Enter, in bold, the number of short-term training positions awarded.
- 14) **Short-Term Appointed.** Enter, in bold, the number of individuals appointed.
- 15) **Short-Term: Diverse Backgrounds.** Enter, in plain text, the number of individuals appointed who are from diverse backgrounds (i.e., from racial and ethnic groups that have been shown by the National Science Foundation to be underrepresented in biomedical research on a national basis: African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and other Pacific Islanders).

Summarize these data in the Progress Report Section of the Research Training Program Plan; if any trainee positions were not filled, if any trainees terminated early, or if the distribution of appointed positions differs from the distribution of awarded positions, provide an explanation. It may also be useful to refer to these data within the Recruitment and Retention Plan to Enhance Diversity Section of the Research Training Program Plan.

**Sample Table 7. Appointments to the Training Grant for Each Year of the Current Project Period**

<b>Training Positions</b>	<b>Budget Year 01</b>	<b>Budget Year 02</b>	<b>Budget Year 03</b>	<b>Budget Year 04</b>	<b>Sum of Budget Years</b>
Predocutorial Awarded	8	8	8	8	<b>32</b>
Predocutorial Appointed	8	8	8	8	<b>32</b>
– Predoc: Dual-Degree	0	0	1	1	2
– Predoc: Diverse Backgrounds	0	5	2	2	9
Postdoctoral Awarded	4	4	4	4	<b>16</b>
Postdoctoral Appointed	4	4	4	4	<b>16</b>
– Postdoc: MD or Equivalent	0	1	0	1	2
– Postdoc: PhD or Equivalent	3	1	3	3	10
– Postdoc: DDS, DVM, Other	1	1	0	0	2
– Postdoc: Dual Degree	0	1	1	0	2
– Postdoc: Diverse Backgrounds	0	0	0	0	0
Short-term Awarded	8	8	6	7	<b>29</b>
Short-term Appointed	7	6	6	7	<b>26</b>
– Short-Term: Diverse Backgrounds	2	2	1	2	7

## **Table 8B. Program Outcomes: Short-Term Rationale**

For renewal applications, this table provides information about the use of short-term training positions (e.g., distribution by faculty member, year in program, years of support per short-term trainee). The data also permit an evaluation of the effectiveness of the supported training program in achieving the training objectives of the prior award period(s) for up to 15 years.

### **Instructions**

If applicable, list sequentially, by year of appointment, all students who have been supported by the grant for short-term research training experiences in the last 15 years. If the grant has been active for less than 15 years, list all trainees to date.

For each trainee, provide:

- 1) **Trainee.** Provide the trainee name in the format Last Name, First Name and Middle Initial.
- 2) **Category of Trainee.** Provide the trainee category (e.g., Medical Student, Dental Student, Veterinary Student, Other Health Professional Student, or Quantitative Sciences Student)
- 3) **Faculty Member.** In the format of Last Name, First Name and Middle Initial., provide up to two primary research training faculty acting as mentors (these will be training grant faculty).
- 4) **Start Date.** Provide the calendar month and year of appointment as a short-term trainee on this grant, in the format MM/YYYY.
- 5) **Topic of Research Project.** Provide the topic of the research project.
- 6) **Subsequent Training or Related Award/Role/Year.** If applicable, provide any subsequent NIH and other HHS training, fellowship, research education, or career development support. List the awarding component, activity, role, and year (e.g., HD K23/PI/2013).

**Sample Table 8B. Program Outcomes: Short-Term**

Trainee	Category of Trainee	Faculty Members	Start Date	Topic of Research Project	Subsequent Training or Related Award/Role/Year
Lin, Mari G.	Medical Student	Doe, John Smith, Jerry	07/1998	PAI 1 and cardiac fibrosis	NS R25/Participant/2003 HL K23/PI/2006
Holmes, Will M.	Medical Student	Doe, John	07/1999	Study of Nonaccidental Brain Trauma	HD K12/Scholar/2005

## Table 8C. Program Outcomes: Postdoctoral Rationale

For new applications, this table provides information on the effectiveness of the proposed training program.

For renewal applications, this table provides detailed information about how postdoctoral training positions are used (i.e., distribution by year in program, distribution by faculty member, years of support per trainee). The data also permit an evaluation of the effectiveness of the supported training program in achieving the training objectives of the prior award period(s) for up to 15 years.

### Instructions

#### Part I. Those Appointed to the Training Grant

In **Part I**, list sequentially, by year of entry into the postdoctoral research training program, all trainees who have been supported by this grant at any time during the last 15 years, including those who did not complete the training program for any reason. If the grant has been active for less than 15 years, list all trainees to date.

For each trainee, provide:

- 1) **Trainee.** Provide the trainee name in the format Last Name, First Name and Middle Initial.
- 2) **Doctoral Degree(s) and Year(s).** Provide the trainee's doctoral degree(s) and the year(s) awarded.
- 3) **Faculty Member.** In the format of Last Name, First Name and Middle Initial., provide up to two primary research training faculty acting as mentors (for trainees, these will be training grant faculty). If not yet selected, indicate "TBD" (to be determined).
- 4) **Start Date.** Provide the calendar month and year of entry into postdoctoral research program in the format MM/YYYY. The entering year is the first year of postdoctoral research experience, excluding non-research clinical training (for trainees, this date may precede the appointment to the training grant).
- 5) **Summary of Support During Training.** Provide the primary source and type of support during each twelve-month period of training, using TY1 for Training Year 1, TY2 for Training Year 2, etc. Do not list individual mentored career development awards here; they will be captured under grant support obtained as a PD/PI. For NIH support, list the awarding component and the activity (e.g., CA R01). Bold the grant being reported in this application. For other sources and types of support, use the categories below, and report only the primary source and type of support for each training year.

#### Sources of Support

- Research grant (RG)
- Fellowship (F)
- Training Grant (TG)
- Other

#### Types of Support

- NSF
- Other Federal (Other Fed)
- University (Univ)
- Foundation (Fdn)
- Non-US

- Other
- 6) **Degree(s) resulting from Postdoctoral training and Year(s).** If applicable, provide any degrees resulting from the postdoctoral training and the year awarded. If the training program does not offer degrees, indicate “none.” Trainees currently in the program should be designated “in training.”
  - 7) **Topic of Research Project.** Provide the topic of the research project.
  - 8) **Initial Position, Department, Institution, Activity; and Current Position, Department, Institution, Activity.** For trainees who have completed or left the program, their initial and current positions, department, and institution. If individuals hold joint appointments/positions, list only the primary position. If information is not available, report “unknown.” Classify each position as predominantly Research-intensive, Research-related, Further Training, or Other. Research-related positions generally require a doctoral degree, and may include activities such as teaching, administering research or higher education programs, science policy, or technology transfer.
  - 9) **Subsequent Grant(s)/Role/Year Awarded.** If applicable, subsequent fellowship, career development or research grant support obtained from any source, whether as PD/PI or in another senior role (i.e., co-investigator, faculty collaborator, or staff scientist). For NIH and other HHS support, list the awarding component, activity, role, and year (e.g., GM R01/Staff Scientist/2011). Up to five grants may be listed.

## **Part II. Those Clearly Associated with the Training Grant**

In Part II, if applicable, list any **current** postdoctorates clearly associated with the training grant who have been supported by NIH funds other than this training grant, and provide the information described in Part I, items 1-9, above, for each. “Clearly associated” postdoctorates are those with a training experience identical to those appointed to this training grant, but who are supported by other forms of NIH or HHS funding (e.g., fellowships or research grants). Note that, for some postdoctoral programs, Part II may not be applicable.

## **Part III. Recent Graduates**

In **Part III (only for new applications and predoctoral renewal/revision applications requesting an expansion to postdoctoral support)**, list sequentially all postdoctorates **completing** the proposed program in the last five years who would have been eligible for appointment, if an NIH training or related award were available (in most cases, these will be U.S. citizens or permanent residents).

For each postdoctorate, provide the information described in Part I, items 1-4 and 6-9, above.

**Summarize the data from Parts I-III (as applicable) in the [Background Section of the Research Training Program Plan](#).**

For RPPRs, provide updated trainee information in Part I, reflecting new appointments and other changes over the reporting period. Do not include data that are older than 15 years. In Part II, if applicable, provide updated information on clearly associated postdoctorates, reflecting new entrants and other changes over the reporting period. In each subsequent year, continue to add new entrants and provide updated information about current and past postdoctorates until 15 years of data have been completed; do not include data older than 15 years.

Summarize these data in the RPPR, in the Accomplishments Section, in responding to the question, “What opportunities for training and professional development has the project provided?”

**Sample Table 8C. Program Outcomes: Postdoctoral**

**Part I. Those Appointed to the Training Grant**

Trainee	Doctoral Degree(s) and Year(s)	Faculty Member	Start Date	Summary of Support During Training	Degree(s) Resulting from Post-doctoral Training and Year(s)	Topic of Research Project	Initial Position Department Institution Activity	Current Position Department Institution Activity	Subsequent Grant(s)/Role/Year Awarded
