* Names of members, other than the chairperson and veterinarian, may be represented by a number or symbol in this report to OLAW. Sufficient information to determine that all appointees are appropriately qualified must be provided and the identity of each member must be readily ascertainable by the institution and available to authorized OLAW or other PHS representatives upon request.

** List specific position titles for all members, including nonaffiliated (e.g., banker, teacher, volunteer fireman; not “community member” or “retired”).

*** PHS Policy Membership Requirements:

**Veterinarian** veterinarian with training or experience in laboratory animal science and medicine or in the use of the species at the institution, who has direct or delegated program authority and responsibility for activities involving animals at the institution.

**Scientist** practicing scientist experienced in research involving animals.

**Nonscientist** member whose primary concerns are in a nonscientific area (for example, ethicist, lawyer, member of the clergy).

**Nonaffiliated** individual who is not affiliated with the institution in any way other than as a member of the IACUC, and is not a member of the immediate family of a person who is affiliated with the institution. This member is expected to represent general community interests in the proper care and use of animals and should not be a laboratory animal user. A consulting veterinarian may not be considered nonaffiliated.

[Note: all members must be appointed by the CEO (or individual with specific written delegation to appoint members) and must be voting members. Non-voting members and alternate members must be so identified.]
Submitting the Annual Report

- Convert the signed annual report to a PDF document
- E-mail the report to: olawarp@mail.nih.gov
- No online submission for the 2012 report
- Do not FAX
- Do NOT send hard copy (US Mail, FedEx, etc.)
Please send questions to OLAW via the question box on your screen.
Our last report covered the non calendar year ending March 31, 2012, and we were informed that our next report was due by April 30, 2013. More recently, we received an e-mail stating that the due date for all annual reports was January 31, 2013.

Could you clarify which of those two dates applies to our institution?
Question 2

Does the institution have to submit an annual report if they have recently renewed their Animal Welfare Assurance?
If there are programmatic changes after the annual report has been submitted to OLAW, how should the institution report these?
For the semiannual program review and facility inspections, does the institution have to list all of the facilities and the dates they were inspected?
If the inspections are performed throughout the six-month period, does the report have to identify which facilities were reviewed at which times?
What happens if the semiannual dates are more than six months apart?
Can we submit the annual report prior to December 31?
What if the annual report is submitted late?
What is considered noncompliance regarding information contained in the annual report?
Do the minority views need to be explained in the annual report, or just report the dates?
Is a “no” vote by a member when the IACUC is voting on acceptance of a protocol a minority view?
What if the IO is not available to sign the annual report?
What if the Chair is not available to sign the annual report?
Question 14

If a new program component is added, and it’s not AAALAC accredited, does that change the status of the institution from category one to category two?
If we open a new building that becomes part of our existing AAALAC accredited animal program, does this change our category designation?
Should changes in the Assurance be reported in the annual report or as they occur?
In preparing our OLAW annual report we have identified some major changes that have occurred in our program including:

- an updated PI and IACUC member training policy
- a newly developed occupational health and safety program
- new IACUC members

Is it correct that we include these major changes in our upcoming annual report?
The following changes do not alter our animal program as much as they change the mechanism used to comply with the requirements. Do we need to include these in our upcoming annual report?

- Creating a new subcommittee of the IACUC to follow up on animal use concerns
- Adding the harm/benefit analysis of animal use in research during our protocol review
- Correcting a sentence in our Assurance concerning how we conduct Designated Member Review.
If an institution had to make tons of program changes to implement the standards of the new *Guide*, how much info should they report?

The instructions under program changes indicate: “This institution’s program for animal care and use has changed (PHS Policy IV.A.1.a–i.). [Attach a full description of the changes.]”
Can you please clarify the species change notification requirement? What kind of changes are we talking about?
Our IACUC has created a policy to use designated member review subsequent to full committee review in our IACUC review process. Should we report this as a program change in our annual report?
Should Interinstitutional Assurances approved by OLAW be included in the annual report?
If our Assurance has substantially changed, but is not due for renewal for two years, would OLAW prefer to receive the changes via the annual report or a completely new Assurance?
Since our programs have been updated to implement the *Guide* 8th Edition and the OLAW Sample Animal Welfare Assurance was revised earlier this year, is it expected that we submit an updated Assurance for approval?
We have a disaster plan completed but the IACUC has not yet completed reviewing the document and may require more revisions. How should this be reported?
You have mentioned that our institution should have a reasonable plan and schedule for implementing the changes that are required to meet the *Guide 8th Edition* standards. What does OLAW consider a reasonable plan and schedule?
Our agreements with collaborating institutions are being written but since this requires both IACUCs to review the changes it has taken longer than expected and we do not have them completed. How do we report this?
Question 28

It is my understanding that if an institution has undergone an AAALAC site visit during the year – that it would suffice for the annual report. Is this correct?
If our PHS Assurance is being evaluated for renewal, would the renewal Assurance document complete the requirements of the annual report?
Are the completed annual reports to OLAW posted online or available via FOIA?
Can you clarify the requirements for the IACUC Chair and members’ addresses, phone numbers, et cetera?
Do those need to be reported if it is not the address and phone number for the IO or the IACUC Office?
What if the IACUC office does not have an e-mail address?
Is e-mail submission of a PDF document the only accepted method this year?
Question 34

Does OLAW recognize the category of non-voting member of an IACUC and if so what responsibilities could such a member have?
Do minority views of nonvoting members of the IACUC need to be provided in the annual report?
Do nonvoting IACUC members need to sign the semiannual report?
If the AAALAC site visit doesn’t coincide with our semiannual inspection date, will it still be acceptable as one of our inspections?
If we are not required to list IACUC member names, how does OLAW track and review the IACUC members?
What’s the earliest date that annual reports can be submitted?
What protects IACUC members from having their contact information used by animal activist organizations?
What does OLAW do with the annual reports?
