**Subject:** USDA site visit at Primate Products A4102

**Importance:** High

Hi, Just FYI for now... Bill Stokes called, they received complaint from SAEN (our case closed in March 2014, electrocution of three NHPs) and a PeTA mole (bear killed two NHPs, sanitation and Vet care issues). Five VMOs are at the facility today through Friday. I shared with him that we have four closed cases including the electrocution issue. I told him about one case where a monkey was strangled in an enrichment device and suggested the VMOs look at those while they are there. Otherwise, he will call us back when the visit is done. I also asked him to inform Primate Products (Jeff Rowell) to self-report anything applicable to OLAW. That's all the info for now. I'll see you Friday. Bill's # is 919-855-
