1000 South Pine Island Road
Suite 100
Fort Lauderdale, FL 33324

Reference: OSHA Complaint No. 989134

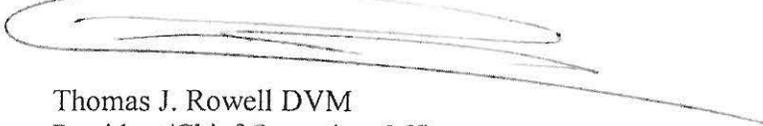

Dear [REDACTED]

Regarding your notice of 5 June 2015 referencing complaint number 989134 please note the following responses to your query (*responses in italic*) with accompanying documentation attached:

- 1) Employees are not using personal protective equipment when working with animals carrying pathogenic organism. *Employees are provided PPE and required to wear the equipment consistent with Standard Operation Procedure (SOP) 111, Use of Personal Protective Equipment by Technical Staff and Visitors.*
- 2) Employees are not being given training to prevent transmission of disease from animals. Zoonotic training occurs annually. *The last documented annual session (Zoonotic Disease Training and Blood Borne Pathogen training occurred 5 March 2015.*
- 3) Employees are being required to use bleach for decontamination purposes that is either improperly mixed or not mixed with water. Employees are suffering burns and respiratory distress from the bleach. *There have been no reports of employees suffering burns or respiratory distress from using bleach. SOP 250 titled Cleaning and Disinfection of Outdoor Animal Holding Areas During Quarantine and Non Quarantine stipulates 1 part 10 %bleach to 9 parts water.*

Please contact me if I can provide additional information. I can be reached at [REDACTED] or email [REDACTED]@primateproducts.com.

Sincerely,

Thomas J. Rowell DVM
