K99/R00 GUIDE FOR REVIEWERS
NIH Pathway to Independence (PI) Award

Purpose of the Award

- Increases and maintains a strong cohort of new and talented, NIH-supported independent investigators
- Facilitates a timely transition from a mentored intramural or extramural postdoctoral research position to an independent, tenure-track or equivalent faculty position and provides independent NIH research support during the transition to help these individuals launch competitive, independent research careers
- Provides opportunity for promising postdoctoral scientists to receive both mentored and independent research support from the same award

Applicants

- Should have no more than four years of postdoctoral research experience at the time of submission of the new application and the subsequent resubmission (A1), and must be in a mentored, postdoctoral training position
- Must propose a research project that spans both the mentored (K99) and independent (R00) phases of the award
- Should select an appropriate mentor with an active track record of funded research related to the selected research topic and successful experience as a supervisor and mentor
- Award recipients are expected to establish an independent research program and compete successfully for independent NIH R01 support during the R00 award period.

More Information

- Visit the parent Announcement through the Parent Announcement page and the K Kiosk for information about the Career Development Award.
- Read more about the K review criteria and considerations: Review Criteria at- a-Glance.
- For more information on scoring and critique templates, see: Scoring System and Procedure, Critique Template Instructions.
