## Summary of Significant Changes to the NIH GPS for October 2017 Version

(Guide Notices Issued Before October 1, 2017)

The revised NIH Grants Policy Statement (NIHGPS, rev. 10/01/2017) represents an update to the November 2016 version and is applicable to all NIH grants and cooperative agreements beginning on or after October 1, 2017. While the update does not introduce any new material for the first time, it incorporates new and modified requirements, clarifies certain policies, and implements changes in statutes, regulations, and policies that have been implemented through appropriate legal and/or policy processes since the previous version of the NIHGPS dated November 2016. The 10/01/2017 revision supersedes, in its entirety, the NIH Grants Policy Statement (November 2016) as a standard term and condition of the award.

**Notable Policy Changes:** Implements new policies and clarification of existing policies announced in the NIH Guide since October 2016, and listed at <u>Grants Policy & Guidance</u>.

| Section   | Significant Changes  | Reason  |
|---|--|---|
| PART 1: NIH Grants – General<br>Information                                     | Sec. 2.3.5 Types of Funding Opportunity Announcements: Specifies that NIH will require that all applications involving one or more clinical  | Implements provisions announced in NOT-OD-16-147 and NOT-OD-17-043  |

|   | their applications, applicants seeking NIH funding     |                                    |
|   | will be required to submit a plan for the              |                                    |
|   | dissemination of NIH-funded clinical trial             |                                    |
|   | information that will address how the expectations     |                                    |
|   | of this policy will be met. NIH-funded awardees        |                                    |
|   | and investigators conducting clinical trials funded    |                                    |
|   | in whole or in part by the NIH will be required to     |                                    |
|   | comply with all terms and conditions of award,         |                                    |
|   | including following their plan for the dissemination   |                                    |
|   | of NIH-funded clinical trial information.              |                                    |
|   |  | Implements provisions announced in |
|   | Sec. 4.1.4.1 Certificates of Confidentiality: Section  | NOT-OD-17-109.                     |
|   | 301(d) of the PHS Act, as amended by Section           |                                    |
|   | 2012 of the 21 Section 2012 of the 21st Century        |                                    |
|   | Cures Act, P.L. 114-255, states that the Secretary     |                                    |
|   | shall issue Certificates of Confidentiality            |                                    |
|   | (Certificates) to investigators or institutions        |                                    |
|   | engaged in biomedical, behavioral, clinical, or        |                                    |
|   | other research activities in which identifiable,       |                                    |
|   | sensitive information is collected. All recipients     |                                    |
|   | covered by this policy are deemed to be issued a       |                                    |
|   | Certificate, and are therefore required to protect the |                                    |
|   | privacy of individuals who are subjects of such        |                                    |
|   | research. NIH will no longer accept applications       |                                    |
|   | or issue paper certificates for NIH-funded research    |                                    |

|   | collecting "covered information," as defined in the policy.  |  |
|---|--|--|
|   | Sec. 4.1.15.10 NIH Policy on Good Clinical Practice Training for NIH Awardees Involved in NIH-funded Clinical Trials: Establishes the expectation that all NIH-funded investigators and staff who are involved in the conduct, oversight, or management of clinical trials should be trained in Good Clinical Practice (GCP), consistent with principles of the International Conference on Harmonisation (ICH) E6 (R2). | Implements provisions announced in NOT-OD-16-148.                                  |
|   | Sec. 4.2.2 Certification of Filing and Payment of Taxes has been removed. This statutory requirement is no longer in place.  | Clarifies legislative mandates in effect as outlined in NOT-OD-17-075              |
| Chapter 8 – Administrative Requirements | Sec. 8.1.2.5 Change in Scope: The prior approval requirement for changes from "No Clinical Trial" to "Includes Clinical Trial" has changed. This project change now requires submission of a competitive revision application, to a FOA which accepts clinical trials.   | Implements provisions announced in NOT-OD-16-147 and NOT-OD-17-043                 |
|   | Sec. 8.2.5 Interim Research Products: This section outlines reporting instructions to allow investigators to cite their interim research products and claim them as products of NIH funding.   | Implements provisions announced in NOT-OD-17-50                                    |
|   | 8.4.1.4 Final Research Performance Progress Report: Effective January 1, 2017 (June 30, 2017, for SBIR/STTR awards) the Final RPPR has replaced the final progress report for closeout. NIH is no longer accepting Final Progress Reports. This section has been updated to provide guidance on the submission of Final and Interim RPPRs.   | Implements provisions announced in NOT-OD-17-022, NOT-OD-17-037 and NOT-OD-17-085. |
|   | Corresponding changes made to: 8.6, 11.3.13.4, 18.5.5.5  |  |

|   |  | F                                  |
|---|--|------------------------------------|
|   | Sec. 8.6.2 Final Research Performance Progress         | Implements provisions announced in |
|   | Report: Removes previous NIH Type 2 policy,            | NOT-OD-17-022, and NOT-OD-17-037.  |
|   | which allowed progress reports submitted in Type       |                                    |
|   | 2 applications to serve in lieu of a separate final    |                                    |
|   | progress report. NIH now requires that                 |                                    |
|   | organizations submit an "interim-RPPR" while           |                                    |
|   | their renewal (Type 2) application is under            |                                    |
|   | consideration. In the event that the Type 2 is         |                                    |
|   | funded, NIH will treat the Interim-RPPR as the         |                                    |
|   | annual performance report for the final year of the    |                                    |
|   | previous competitive segment. If the Type 2 is not     |                                    |
|   | funded, the Interim-RPPR will be treated by NIH        |                                    |
|   | staff as the institution's Final-RPPR.                 |                                    |
| Chapter 11 - Ruth L. Kirschstein National | Sections 11.2 and 11.3 Individual Fellowships and      | Implements provisions announced in |
