To Whom It May Concern:

I am writing to voice my concern and outrage at the possibility of using tax payer dollars to fund **Human-Animal Chimera Research**. This highly unethical area of science apparently has had little scrutiny and should not begin.

My outrage at the NIH concern regarding animal welfare is indescribable. Where is the statement of concern for human welfare?

Please register me as being opposed to the use of tax payer money for this despicable "research."

Sincerely,

Donna M. Dion
