Office of Science Policy

I am vehemently opposed to the National Institute of Health's proposal to rescind its moratorium on funding research involving human-animal chimeras.

Do not use my tax dollars or any other tax dollars. This is an uncivilized act along with being unethical.

Human beings are not just another animal and should be given that respect.

I strongly urge - insist - you maintain the current moratorium on funding research involving the creation and manipulation of human-animal

chimeras)
