Bethesda, MD 20892

NIH members,

I am writing to object to the proposal to rescind the moratorium on funding of research involving human animal chimeras. As a taxpayer I do not want my tax dollars being used for possibly unethical research involving the creation of beings which have not been thoroughly researched as to the end effect of such a manipulation and the possible unethical use of human cells.

The current moratorium on funding such research must be maintained.

Sincerely

Mrs. Kenneth Bush
