

8-30-16

Dear Sirs,

I strongly object to the NIH's Proposal to rescind its moratorium on funding of research involving human-animal chimeras. I do not want my tax dollars being used for grossly unethical research involving the creation & manipulation of part-human, part-animal beings whose very existence blurs the line between human & non-human animals.

I also object to the NIH's apparent lack of consideration for the ethical issues implicated by this research.

I strongly urge you to maintain the current moratorium on funding research involving the creation of such creatures.

Sincerely,
Marilyn Harrison
