Dear NIH,

The Federal Government has no business spending Taxpayer dollars on the creation & manipulation of new beings whose very existance blurs the line between humans & non-human animals. It is morally wrong. Please read the Book of Revelation, The last book of the Bible. This is exactly the kind of creatures it talks about, in the end times. It states that this ^{is} the kind of demonic evil that will exist & this is why the world will face a terrible chastisement before Jesus returns. The people that are going to be held responsible for this kind of evil, need to repent of their sins of Pride for trying to play God. God is the only Creator & giver of all life. Madonna Roberts
